RDIMS 6488436 v1

Attention: **Martin Albrecht, Vice President/General Manager**

Subject: Acceptance of EASA Supplemental Type Certificates (STC) No. 10015216 (EASA.A.S.03631)

This is in response to an application received from EASA dated November 11, 2010 requesting Transport Canada approval of the subject STC.

In accordance with our current policy associated with the review of foreign STCs, some STCs applicable to certain categories of aircraft may be accepted solely on the basis of their foreign certification, and do not require the issue of a corresponding certificate by Transport Canada. This subject STC falls within these criteria.

This STC will be entered in the national index of STCs that have been reviewed and accepted by Transport Canada for installation on Canadian-registered aeronautical products.

The national index of STCs can be viewed at the following Web page:

<http://wwwapps.tc.gc.ca/saf-sec-sur/2/nico-celn/>

This letter confirms formal acceptance of the referenced STC by Transport Canada.

| EASA STC Number | Description | Date of Issuance |
|-----------------|--------------------------------------|------------------|
| 10015216 | Installation of 5-Blade MT-Propeller | 10.02.2001 |

Sincerely,

Stacey Mason
Aircraft Certification Engineer
